

Number of kindergartens and nursing homes that are exposed to noise in Oslo

Number of kindergarten and nursing homes that are exposed to noise between Lden 55–65 (noise exposed) and over 65 dB (very noise exposed). Lden is the average sound level over a 24 hours period with a penalty of 5 dB added for the evening hours (19:00 to 22:00), and a penalty of 10 dB added for the nighttime hours (22:00 to 07:00). Noise levels used in this graph are measured at the most noise exposed areas of the building. Data source: Agency for Urban Development.
